

A**B**

Figure S4. **(a)** Co-AP results for PALB2-MRG15/MRGX detected with antibodies directed against protein-tags, in HeLa cell extracts. **(b)** Top panel, results of co-AP assays using MRG15 deletion mutants for the chromo domain (Δ CHR) or the leucine zipper domain (Δ LZ). Bottom panel, results of co-AP assays using MRGX helix-loop-helix deletion mutant (Δ 5HLH) or L263A point mutant.
